## News Flash Special Bulletin

I attended a two day Integrative Partnership Conference this last weekend in Orlando. Several of the presenting doctors were friends of mine and this gave me the chance to renew old friendships. Some of the topics covered were.

- ◆ The declining food quality and hazards of genetically engineered foods in the US
- ◆ Laboratory Investigation of Chronic Metal Retention
- ◆ Fighting Fat and Fatigue in one swoop with 7 steps to restoring adrenal fitness and correcting insulin resistance
- ◆ Hormone balancing testing and treatment
- ◆ Nutritional Genomics in Clinical Practice
- ◆ Leading edge Bio-Energetic Medicine with Russian Technology
- ◆ Nutritional Considerations with specific pathologies and medications
- ◆ Psychodynamic, Functional and Immunologic matrix

and more.

The presenting doctors were DCs, MDs, DOs, PhDs and one NMD. As many of you know I am a DC with a fellowship in acupuncture and a NMD certificate.

Much of the program was a repeat for me however there were several confirmations on the effects of foods, drugs, and metals that was rewarding to see. It was also very refreshing to see the combination of doctors in the audience. Attending from around the United States were DC's, MD's, and DO's of all specialties.

When many of the medical doctors found out what all we did in our office I was caught at every corner with questions. Wow the world is opening up. Remember at this conference the allopathic doctors attending (MD, DO thus regular medicine) were searching for alternative information to improve patient care. These were doctors that have seen "alternative" therapies such as chiropractic, nutrition and energy work, really perform and wanted more information. Overall this was a very rewarding and informative experience.

Some of you know that in our office we do more than manipulation. Following is a quick list of SOME therapies and approaches we offer. You can view more on our website at [www.mydrhorn.org](http://www.mydrhorn.org). However I still cannot list everything.

But wait there is more!

For those of you that have four legged friends, Trish Kallenbach DVM [www.dr-trish.com](http://www.dr-trish.com) will be here to answer questions about alternative veterinarian treatments for your pet; including manipulations, acupuncture, laser, and food!

Sounds like fun. Well there is more..... Watch your emails for your invitation and future reminders!

We are opening our doors with a get to know each other party! This will be an informal affair giving you the chance to see the whole office, ask questions, meet the entire staff, and have a little wine and food.

Bring those that have been apprehensive about natural medicine, to a non treating environment. Our new lecture room will also be open for viewing. Mark your calendars now for November 5<sup>th</sup> and look for your invitation.

Sound good? Well it gets better yet. We will have some neat stuff from Ritzy Rags in Inverness on display with Andrea and Karen to tell you about their very cool shop [www.ritzandglitz.com](http://www.ritzandglitz.com).

Office address:  
9030 W. Fort Island Trail, Suite 10

Federal Law requires that we warn you of the following:

1. Your individual health status and any required health care treatments can only be properly addressed by a professional healthcare provider of your choice. Remember: There is no adequate substitution for a personal consultation with your chosen health care provider. Therefore, we encourage you to make your own health care decisions based upon your research and in partnership with a qualified health care professional.
2. The Constitution guarantees you the right to be your own physician and to prescribe for your own health.

Often when you are in the office, the opportunity does not present itself to see what we really have to offer. I have found many patients have never seen the complete office. You try to enlighten friends or relatives to come and see what natural medicine is all about, but because they are nervous from the ignorant propaganda readily available, they are afraid to come in and see what non-drug therapy can really do. Well we have a solution!

Some of the things (not all) we do in the office. If you don't know what they are, ask at the PARTY!

- ⇒ Active Release
- ⇒ Acupuncture with needles
- ⇒ Far Infrared Sauna Therapy
- ⇒ Acupuncture with microcurrent
- ⇒ Acupuncture meridian assessment using AcuGraph.
- ⇒ Accuricular Therapy
- ⇒ Accuricular Therapy Specific Frequency Microcurrent
- ⇒ Applied Kinesiology
- ⇒ Chiropractic manipulative therapy diversified technique
- ⇒ Erchonia Red Cold Laser Therapy
- ⇒ Green Laser Therapy
- ⇒ Acupuncture with laser
- ⇒ Chiropractic manipulative therapy Activator
- ⇒ Regular Microcurrent
